

1 Day Great White Shark Cage Diving

📍 Cape Town, City of Cape Town, Western Cape, 8001, South Africa

Shark Cage Diving Adventure of a Lifetime!

Immerse yourself into the world of the *Great White Shark*. The ultimate underwater adventure!! The pure exhilaration and magical wonder of being in the water with these amazing creatures is indescribable. If there is one thing you need to do before you die, it is to come face to face with the apex of marine predators.

The best place in *Cape Town* to experience this tour is in the *Great White Shark* capital of the world-Gansbaai. The *tour* has been designed to be highly interactive and informative. The skipper, marine biologist on board are available for the duration of your *shark cage diving* experience to answer any questions about what is known as the Marine Big 5-namely *sharks*, whales, dolphins, penguins and seals.

Come and experience the ultimate adventure with this great white shark cage diving day tour!

Tour Itinerary

Day 1 :

You are probably going to be so scared you won't be able to make the drive through to the **Great White** Capital of the world. So let us take care of all your tour needs.

We will collect you from **Cape Town** and take the 2.5 hour drive through to **Gansbaai**. The route is mind blowing in terms of scenery as we journey over the Hottentots-Holland Mountains past beautiful lakes, rocky outlets and wine farms. We pass through Hermanus which is famous for its whale sightings before we arrive in **Gansbaai**.

Upon arrival we a hearty breakfast awaits. We then register you onto the dive and issue you with a wetsuit and meet the **shark diving** crew.

Our crew will hold a pre-trip safety briefing chatting to you about what to expect and a biological breakdown on the **Great White Sharks** of **Cape Town**.

And then the adventure begins!! We board the boat and take the 20 minute trip to Dyer Island. Let us rephrase that. Approximately 20 minutes. The **sharks** could be anywhere and the skipper is going to have to try and find them.

Once the **sharks** are found, the cage will be lowered into the water and divers nervously draw straws to see whose first.

Depending on weather conditions and **shark** activity we usually spend about 3 hours observing the **sharks**.

We then take the trip back to shore where some hot soup and final debrief in the **Great White** House awaits.

We then drive you back to **Cape Town**.
